

Riviera Community Improvement Association Erosion Control Committee

January 17, 2012

Over the last 3 months of 2011 we worked on getting proposals for removal of trees that were in the erosion area along the water. We talked to and considered several tree removal contractors: Unlimbited Tree Service, Arundel Tree Service, Henry the Tree Man, Rick Couch Tree Service and Bob Lester Tree Service.

We awarded the job to Bob Lester for the following reasons:

- He appeared to be most interesting in doing the job.
- He had a professional crew of 7 local men.
- He was able to provide the proper insurance.
- He had the DNR look at the job.
- He obtained the proper permits.

TREE WORK WAS PERFORMED AS FOLLOWS:

| | | |
|--------------------------|---|----------|
| 8428 Park Road (Budock) | Removed large mulberry tree; | \$ 1,250 |
| 8424 Park Road (Douglas) | Removed large locust tree which had uprooted over the bank over the water; | 1,000 |
| 140 Park Road | Cleaned up wild cherry tree which had fallen over; | 300 |
| 142 Park Road (Copper) | Removed large pine tree that was leaning near the water; Removed 2 locust trees that were uprooting; | 1,200 |
